Remedial Coaching

- **Slow Learner:**

Remedial coaching is offered to Slow Learner so that they do not lag behind other students of their class. The main motive of remedial coaching is to provide impetus to students who show very slow progress in the subject. In the first place, slow learners are identified and given special attention through individual as well as group counselling to match up with the pace of other students of their class.

- **Purpose:**

The significant purpose of this remedial coaching is to provide opportunity to slow learning students in order to enable them to make steady progress in their studies.

- **Methodology:**

A well planned teaching methodology is followed by dealing with these slow learners. A bilingual method of teaching is used to make them better understand the subject. On many occasions, a short film or documentary related to the topic is shown to the students for making the topic interesting. Newspaper reading is a regular practice in the remedial coaching to improve on the reading skills of the students. The progress of the students is checked from time to time by conducting regular tests.
